

Maternity Fee Schedule

The costs for Standard Prenatal/Birth Care are indicated below for Professional and Facility Services. TMC will submit medical claims to the insurance on file for these charges for both Professional and Facility Services, but a portion of the costs may be determined by your insurance for Patient Responsibility depending on your plan’s coverage. Clients are encouraged to contact their insurance company and reference the medical billing codes below to get an estimate of if your care will apply towards deductible, coinsurance, and/or copayments for Midwifery Care at an Out-of-Hospital Birth Center. The costs included on our Maternity Fee Schedule are subject to change at any time.
